Oriental Face Database Release Agreement

The institute of Artificial Intelligence and Robotics (AI&R) of Xi'an Jiaotong University has constructed the oriental face database. The goals to create the oriental face database include (1) developing new techniques, technology, and algorithms for the automatic recognition of human faces; (2) supporting the work of Realistic Human Face Rendering by providing large-scale face images with different sources of variations Viewpoint situation; (3) advancing the state-of-the-art face recognition technologies aiming at practical applications especially for the oriental. Therefore, the oriental face database is now partly made available for research purpose only on a case-by-case basis only. AI&R is serving as the technical agent for distribution of the database and reserves the copyright of all the images in the database. Any researcher who requests the oriental face database must sign this agreement and thereby agree to observe the restrictions listed in this document. Failure to observe the restrictions will result in access being denied for the request of the future version of the oriental face database and being subject to civil damages in the case of publication of images that have not been approved for release.

The researcher(s) agrees to the following restrictions on the oriental face database:

1.   Only images marked with "pub" label in the file name will be published or released in technical reports, papers in the face recognition research area only. Other images will never appear in any document of any form. Any images will never be released in commercial materials, newspapers, or other public Medias.

2.   The database will not be further distributed, published, copied, or further disseminated in any way or form whatsoever, whether for profit or not. This includes further distributing, copying or disseminating to a different facility or organizational unit in the requesting university, organization, or company.

3.   All the images will be used for the purpose of scientific researches only. The oriental face database, in whole or in part, will not be used for any commercial purpose in any form.

4.   All technical papers, documents and reports which use the oriental database will acknowledge the use of the database as follows: "Portions of the research in this paper use the oriental face database collected under the research of the Artificial Intelligence and Robotics (AI&R)." And a copy of all published papers, reports and other documents that use the oriental face database will be forwarded immediately to the AI&R.

5.   The final explanation of this agreement refers to the AI&R.
