

## Introduction

**Name:** Jiang weifeng

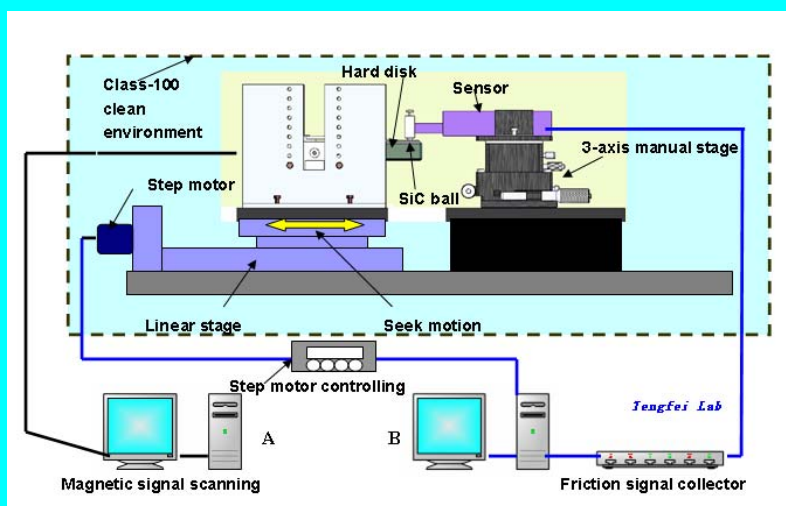

**Hometown:** Shandong province

**Major:** I got bachelor degree of mechanical design and automation from Hunan University of technology in 2006, and now my major is mechanical design and theory.

## Research project

**The critical conditions for demagnetization of perpendicular recording hard disk under sliding contact**

## Experimental apparatus

- 1、Study wear&friction of hard disk
- 2、test the demagnetization of hard disk under sliding contact
- 3、calculate the critical conditions for demagnetization of hard disk

## Interests:

Reading novel 、 seeing movies、 climbing hill、 fishing、 playing basketball etc.
